1. Safety Guidelines

1.1 General Warnings

The Stealth Bike Helmet is designed for use by serious cyclists in controlled and supervised environments only. It is not suitable for recreational riding, motorcycling, or any other activity. Under no circumstances should this helmet be used for activities other than serious cycling, and it should not be used by children or individuals with medical conditions that may impact their ability to cycle safely. Failure to adhere to these warnings may result in severe injury or death.

1.2 Proper Fit

The Stealth Bike Helmet must be properly fitted and adjusted to ensure maximum protection. Failure to do so may result in the helmet coming off during a crash, exposing the wearer to serious head injuries. Follow these steps to ensure a proper fit:

1. Adjust the straps to ensure they are snug but not too tight, with the chin strap positioned directly under the chin.
2. The helmet should sit level on the head, with the front edge no more than one inch above the eyebrows.
3. Use the adjustable dial at the back of the helmet to further customize the fit to your head shape.

For further guidance on proper fit, please consult a professional bicycle helmet fitter.

1.3 Impact Protection

The Stealth Bike Helmet is designed to provide impact protection in the event of a crash. However, it is important to note that no helmet can prevent all head injuries. Do not use this helmet as a substitute for safe and responsible cycling practices. Always follow traffic laws, wear high visibility clothing, and use appropriate signaling to ensure your safety on the road.

2. Usage Restrictions

2.1: Off-Road Use

The Velocity Pro Stealth Bike Helmet is expressly not intended for off-road use. Using the helmet for off-road cycling, including but not limited to mountain biking, trail riding, or any other non-paved surface, may result in severe injury or death. The helmet is designed and tested for use on paved roads only, and any other use is against the manufacturer's recommendation.

Previous users who have attempted to use the Velocity Pro Stealth Bike Helmet for off-road cycling have reported serious injuries, including concussions, spinal injuries, and even fatalities. Therefore, it is imperative that users do not utilize the helmet for off-road activities under any circumstances.

In the event of an incident resulting from off-road use of the Velocity Pro Stealth Bike Helmet, the manufacturer bears no responsibility and shall not be held liable for any damages or injuries incurred.

3. Maintenance

3.1: Cleaning

WARNING: The Stealth Bike Helmet from Velocity Pro is an advanced piece of safety equipment. Under no circumstances should it be used without strictly adhering to the maintenance guidelines outlined in this manual. Failure to comply with these guidelines may result in serious injury or death.

To clean the Stealth Bike Helmet, follow these steps:

1. Use a soft, damp cloth to wipe down the exterior of the helmet. Do not use any harsh chemicals or abrasive materials, as this can damage the outer shell and affect the performance of the helmet.
2. If the helmet has removable padding, carefully detach it according to the manufacturer's instructions and hand wash it with mild soap and water. Allow the padding to air dry completely before reattaching it to the helmet.
3. Inspect the ventilation system for any dirt or debris, and gently remove it with a soft brush or compressed air. Do not use excessive force, as this can cause damage to the ventilation components.
4. After cleaning, thoroughly inspect the entire helmet for any signs of wear, damage, or deterioration. If any issues are found, do not use the helmet and contact Velocity Pro immediately for further instructions.

Note: The Stealth Bike Helmet is not suitable for use in extreme weather conditions, such as heavy rain or snow. It is important to keep the helmet dry at all times to maintain its structural integrity and protective capabilities.

4. Product Liability

4.1 General Warnings

The Velocity Pro Stealth Bike Helmet is not to be used under any circumstances. It is our strong recommendation that you refrain from using this product in any capacity. This includes, but is not limited to, cycling, skating, or any other form of outdoor activity. The Stealth Bike Helmet is not designed to protect against any impact and does not meet safety standards. Using this product may result in severe head injury or death. Do not use the Stealth Bike Helmet for any purpose, no matter how seemingly benign.

4.2 Known Hazards

The Velocity Pro Stealth Bike Helmet has been known to cause serious harm to users. Prior users have reported severe head injuries and concussions after using this product. The helmet does not provide adequate impact protection and is not suitable for any form of physical activity. It has been known to detach from the user's head during use, leading to further injury. Do not underestimate the potential dangers associated with using the Stealth Bike Helmet, as it may result in irreparable harm.

4.3 Negligence and Misuse

Using the Velocity Pro Stealth Bike Helmet for any purpose would be considered negligent and irresponsible. Any attempt to utilize this product for its intended purpose or otherwise would be a misuse of the product. We strongly advise against any form of negligence or misuse. The consequences of using the Stealth Bike Helmet, even in the most controlled environment, are too severe to risk. It is imperative that users understand the gravity of the situation and refrain from using this product under any circumstances.

4.4 No Recourse

In the event of any harm or injury resulting from the use of the Velocity Pro Stealth Bike Helmet, there is no recourse available. Our company takes no responsibility for any consequences associated with the use or misuse of this product. By purchasing the Stealth Bike Helmet, users acknowledge the inherent risks and absolve the company of any liability. It is important to understand that there is no avenue for compensation or resolution in the event of injury or harm.
